**8 CAMERA HOME SECURITY SYSTEM
WITH DVR**

HE160232
03/2016

Getting Started Guide

- 1.** Connect each of the camera extension cables to the video and power connectors.

- 2.** Connect the other end of the extension cables to the ports marked "Video IN" on the back of the DVR.

- 3.** Connect the 8-way power splitter to each of the extension cable power plugs.

- 4.** Connect the included HDMI cable to the back of the DVR and connect the other end of the HDMI cable to your monitor or TV.

NOTE: You must switch your TV or monitor to the correct INPUT once the DVR has been powered on. For example, HDMI1

COCOON™

8 CAMERA HOME SECURITY SYSTEM WITH DVR

HE160232
03/2016

Getting Started Guide

- 5.** Connect the mouse to the rear USB port.

- 6.** Connect the power adaptor to the 8-way splitter and plug into an outlet. Switch the outlet on.

- 7.** Connect the remaining power adaptor to the DVR and plug into a mains outlet. Switch the outlet on. The DVR will begin the boot sequence.

NOTE: Both the DVR and cameras operate "always on". To turn the cameras or DVR off, switch off the power adaptors at the power outlet

Tips: Test all connections are working before permanently installing DVR and cameras. Position the DVR in a central location where all 8 cameras will reach. If using the optional networking features make sure the modem is near the DVR
