

## MOTORCYCLE BLUETOOTH KIT

Model Number: BT42740

#### **MOTORCYCLE BLUETOOTH® KIT**

# **Warranty Details**

#### REGISTER YOUR PURCHASE AT www.aldi.com.au/en/about-aldi/product-registration/TO KEEP UP-TO-DATE WITH IMPORTANT PRODUCT INFORMATION

The product is guaranteed to be free from defects in workmanship and parts for a period of 12 months from the date of purchase. Defects that occur within this warranty period, under normal use and care, will be repaired, replaced or refunded at our discretion. The benefits conferred by this warranty are in addition to all rights and remedies in respect of the product that the consumer has under the Competition and Consumer Act 2010 and similar state and territory laws.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

# **4. PRODUCT FEATURES**

Complete system for all your communication needs while riding your motorbike.

The Bluetooth<sup>®</sup> function will keep you connected to your mobile phone, so you can play music and connect with Bluetooth<sup>®</sup> GPS systems.

#### NOTE: Not all Bluetooth enabled devices will be compatible with the Motorcycle Bluetooth. Reference the technical specifications of both devices to check compatibility.

The intercom means you can communicate with your pillion or other riders within 500m while you ride. With simple set up and clear sound quality you will always be in touch.

# 5. SETUP

## 5.1 Fitting the Bluetooth® Receiver to Your Helmet

- 1. Using the provided screw driver, loosen the Headset Clip screws.
- 2. Slide the Headset Clip onto the left side of the helmet (when on your head). Take care to place the inside of the Headset Clip under the helmet padding.

- 3. Adjust the clip until you find the best location for your helmet. Ensure that the slots in the Headset Clip mount are facing away from the helmet.
- 4. Tighten the screws to hold the clip firmly in place.

WARNING: Take care not to overtighten as this could cause the clip to break. In the event of a broken clip, spares can be purchased from www.cocoonproducts.com.au

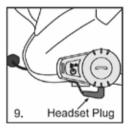

- Slide the Bluetooth® receiver down into the slots on the Headset Clip mount. Make sure that it is locked in securely.
- 6. To attach the ear speaker & microphone headset, test which part of the helmet will be the best location by putting your helmet on and locating the place closest to your ears. You will need to put the helmet on a few times to find the optimum position to apply the pad. When the correct position is found, remove the adhesive protective strip and apply to the felted earphone pad.

- 7. Attach ear speaker to the felted pad. Run the microphone arm along the inside wall of the helmet, to where your mouth will be. The microphone arm is flexible and should be adjusted so it sits in the best position in front of your mouth. Some helmets have removable padding; if yours does, it is recommended to run the speaker and microphone under the padding.
- 8 Connect the headset to the Bluetooth® receiver. The plug can only be inserted in one orientation.

#### WARNING: Inserting the plug backwards will cause damage to the Bluetooth® Receiver. Use caution when assembling.

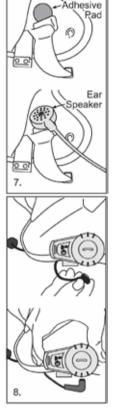

9. Secure the cord of the headset plug inside the helmet. Tuck any extra wire into the helmet. Ensure that only a few centimetres of the cord comes out.

You have successfully mounted the Motorcycle Bluetooth Kit.

Felted

## 5.2 Charging the Bluetooth® Receiver

Before using this device, fully charge the Bluetooth® receiver. This will take approximately 4 hours.

- 1. Insert USB charging cable into the charging port on the headset. Insert the other end of the charging cable into the power adaptor or your computer's USB port.
- 2. While charging, the red LED on the Bluetooth® receiver will illuminate, when the charging is finished, the red LED will switch off.

#### NOTE:

- 1. To maintain long life from the internal lithium battery, charge vour device at least once a month.
- 2. The power adaptor is for indoor use only, do not use the adaptor outdoors.

## 5.3 Powering ON and OFF

- 1. To turn the device ON, press the power/intercom button for 3 seconds until you hear a beep. A blue light will flash guickly 3 times and then continue short flashes at regular intervals.
- 2. To turn the device OFF, press the power/intercom button for 5 seconds until you hear a beep. The Bluetooth® receiver and LED lights will turn off.

# 6. OPERATION WITH A MOBILE PHONE

### 6.1 Pairing to Your Bluetooth® Enabled Mobile Phone

- 1. Place your Bluetooth<sup>®</sup> enabled phone and the Bluetooth<sup>®</sup> receiver near each other. Within 1m is recommended.
- 2. Make sure the Bluetooth® receiver is turned OFF.
- 3. Press and hold down the power/intercom button for approximately 8 seconds until the receiver beeps twice. The red and blue LEDs will flash alternately. The receiver is now actively searching for Bluetooth<sup>®</sup> devices.

- Activate Bluetooth® on your mobile phone and search for the device. Refer to your phone's instructions if you are unclear on how to search for Bluetooth® devices.
- Choose the Bluetooth<sup>®</sup> device named FDC-01VB and choose to pair this device. If you are asked for a password, enter 0000.
- 6. The red and blue LEDs will then change to display blue only and the headset will beep once to confirm pairing was successful.

### **6.2 Managing Phone Calls**

#### To Answer an Incoming Mobile Phone Call

- 1. Press the multi-function button on the receiver while the phone is ringing.
- 2. Use the jog wheel to increase or decrease the headset volume.

# Tip: The incoming call will answer automatically once the phone has rung for 8 seconds.

#### **Ending a Mobile Phone Call**

1. Press the multi-function button to end the call.

#### **Rejecting a Mobile Phone Call**

1. When you hear the phone ringing, immediately press and hold the multi-function button on the headset until you hear a beep.

#### **Redial the Last Number**

1. Press and hold the multi-function button for 2 seconds or until it beeps, it will then dial your last number called.

# 7. OPERATION VIA INTERCOM

# 7.1 Pairing One Motorcycle Bluetooth® to Another Motorcycle Bluetooth® to Use as an Intercom

- 1. Place both receivers near each other (within 1m).
- 2. Make sure both receivers are turned OFF.
- 3. Press and hold down the power/intercom button on both units at the same time for approximately 8 seconds, until the receivers beep twice. The red and blue lights will flash alternately.
- 4. Quickly press the power/intercom button on one of the receivers (We will call this receiver 'A'). This will now search for the other receiver (i.e. receiver 'B') so they can be paired.
- 5. When they have successfully paired, the red and blue lights will then change to blue only (flashing) and the receiver will beep once.

#### To Start a Conversation via Intercom

- 1. Once the two headsets are paired with each other, press the power/ intercom button on either receiver to begin.
- 2. Use the jog wheel to increase or decrease the headset volume.

# Tip: You only need to press the power/intercom button once to establish a connection; conversation between the two paired headsets can now be carried out handsfree.

#### To End a Conversation via Intercom

1. Press the power/intercom button on either of the receivers.

Tip: If the intercom headset is also paired with a mobile phone, the intercom conversation will be automatically disconnected to answer the phone when there is an incoming call. The intercom function will resume once the call has ended.

# 7.2 Pairing Multiple Motorcycle Bluetooth Devices via Intercom

You are able to switch your Motorcycle Bluetooth intercom chat between two other devices. However please be aware that simultaneous three way intercom chat is not possible. You must switch between devices.

#### To pair all three Motorcycle Bluetooth devices:

- 1. After pairing A and B receivers, as per instructions on page 11, turn both receivers completely OFF.
- Place A & C ('C' being the third receiver) together (within 1m) ensuring they are turned OFF to start and follow steps 1-5 on page 11. Once paired turn OFF A and C.
- 3. Finally, place B & C near one another (within 1m) ensuring they are turned OFF to start and repeat steps 1-5 on page 11 again.
- 4. Turn on A All three devices are now paired.

#### NOTE: Receiver A will always be the receiver that initiated the first Bluetooth connection as explained on page 11, step 4

## 7.3 Communicating with each Motorcycle Bluetooth Receiver

Again, you will only be able to talk to each receiver separately by using the multi-function button to switch between receivers. Steps to do this are as follows:

#### Intercom chat instruction for A

1. Press the power/intercom button ONCE to intercom with C, or press the same button TWICE to intercom with B

#### Intercom chat instruction for B

1. Press the power/intercom button ONCE to intercom with C, or press the same button TWICE to intercom with A

#### Intercom chat instruction for C

1. Press the power/intercom button ONCE to intercom with B, or press the same button TWICE to intercom with A

NOTE: To switch between receivers, always press the power/ intercom button first to stop the current conversation.

# 8. OPERATION WITH A BLUETOOTH ENABLED AUDIO DEVICE

### 8.1 Playing Music

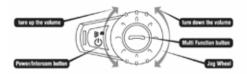

Your Cocoon Motorcycle Bluetooth Kit will pair with most Bluetooth enabled audio devices, however note that we do not guarantee all audio devices will be compatible.

After Sales Support

12

- 1. Select music to play directly from your audio device (check your audio device or phone instructions for how to do this).
- 2. Play music through the headset press the multi-function button once.
- 3. Pause music press the multi-function button again.
- 4. Skip songs forward by guickly flicking the jog wheel in a clockwise direction.
- 5. Rewind songs backwards by guickly flicking the jog wheel in an anti-clockwise direction
- 6. Volume up by turning the jog wheel anti-clockwise and holding until the volume is at the right level.
- 7. Volume down by turning the the jog wheel clockwise and holding until the volume is at the right level. You will hear a long beep if the volume is at the highest or lowest level.

#### Tip: To improve the performance of your headset, make sure the volume is set to the highest level on your music device.

### 8.2 Answer a Call While Listening to Music

Calls will automatically come through the headset while music is playing.

- 1. To reject a call hold the multi-function button down until you hear a beep.
- 2. Music will hold over the call duration and resume automatically once the call has ended.

# 9. DISPOSAL

At the end of its working life, do not throw this product out with your household rubbish. Electrical and electronic products contain substances that can have a detrimental effect on the environment and human health if disposed of inappropriately. Observe any local regulations regarding the disposal of electrical consumer goods and dispose of it appropriately for recycling. Contact your local authorities for advice on recycling facilities in your area.

Observe and local regulations regarding the disposal of waste products. Contact your local authorities for advise on recycling facilities in your area.

Please keep the original packaging carton and materials in a safe place. It will help to prevent any damage if the product needs to be transported in the future. In the event it is to be disposed of, please recycle all packaging material where possible.

If you require another copy of this instruction manual, please contact customercare@winplus.com.au to obtain an electronic copy.

## **10. MAINTAIN AND STORAGE**

The Bluetooth kit does not require scheduled maintenance or cleaning. Should cleaning be necessary, simply wipe the outside surface with a dry soft cloth. Be sure to unplug this device before cleaning. Always store your device in a clean dry environment and avoid storage in extreme heat or cold.

# 11. SPARE PARTS

Spare parts can be purchased from our website – www.cocoonproducts.com.au

14

# **12. TROUBLESHOOTING**

Problem	Solution
The Bluetooth® Receiver has no power.	The Headset must be charged for at least 4 hours prior to first use. Refer to Charging the Bluetooth® Device on page 9 for further details.
My helmet is uncomfortable to wear after fitting the speakers.	The placement of the speakers within the helmet may require repositioning. Two additional felted adhesive earphone pads are supplied for this purpose. Note: Some helmets have removable padding; if yours does, it is recommended to run the speaker and microphone under the padding.
My phone wont pair with the Bluetooth® Receiver	Activate the Bluetooth <sup>®</sup> function on your mobile phone and search for the device, which will show up as FDC-01VB on the "Device List". Refer to your phones instructions to do this. Refer to Pairing to your Bluetooth <sup>®</sup> Enabled Mobile Phone on page 9 for further details.
The audio reception breaks down	Bluetooth <sup>®</sup> enabled devices are susceptible to occasional interference from other common devices such as GPS units, laptops, alarms and Wi-Fi routers etc. Move away from potential sources of interference if you are experiencing problems.
l can't hear my music / incoming calls	Check the volume on the attached device. Setting your phone or audio device to the maximum volume usually resolves this issue.
Will the Motorcycle Bluetooth® Kit work with my GPS?	Please refer to the manual provided with your GPS unit. We do not guarantee that all GPS Bluetooth devices will be compatible.

**MOTORCYCLE BLUETOOTH® KIT** 

# Repair and Refurbished Goods or Parts Notice

Unfortunately, from time to time, faulty products are manufactured which need to be returned to the Supplier for repair.

Please be aware that if your product is capable of retaining user-generated data (such as files stored on a computer hard drive, telephone numbers stored on a mobile telephone, songs stored on a portable media player, games saved on a games console or files stored on a USB memory stick) during the process of repair, some or all of your stored data may be lost. We recommend you save this data elsewhere prior to sending the product for repair.

You should also be aware that rather than repairing goods, we may replace them with refurbished goods of the same type or use refurbished parts in the repair process.

## Please be assured though, refurbished parts or replacements are only used where they meet ALDI's stringent quality specifications.

If at any time you feel your repair is being handled unsatisfactorily, you may escalate your complaint. Please telephone us on 1300 663 907 or write to us at:

Winplus Australasia

PO Box 537 Bayswater Business Centre, Victoria, Australia 1300 663 907 - Hours: Mon-Fri 8:30am - 6:00pm AEST
